Bibliography B.2

Water Resources Publications Available from the United Water Conservation District

- Subjects:** Geology, hydrogeology, hydrology, water resources, flood control, water reuse.
- Principal Areas:** Santa Clara River drainage basin, Oxnard Plain, Calleguas Creek drainage basin. Some reports from the Ventura River drainage basin.
- Compiled by:** United Water Conservation District
- Notes:** The reports are grouped by the agency principally responsible for producing and/or funding the report. Five groups are used: 1. Santa Clara and United Water Conservation Districts; 2. Ventura County agencies; 3. State agencies; 4. United States Government agencies; 5. Miscellaneous agencies. Some documents were produced by more than one agency.

I. Site-Specific Studies

A. Documents on hand at United Water Conservation District

1. Santa Clara and United Water Conservation Districts

- Berkey, Charles P., and Kerr, Paul F., Aug. 1931, Progress report on the geological features of certain dam sites on Piru Creek: Santa Clara Water Conservation District, unpublished consultant's report.
- Berkey, Charles P., and Kerr, Paul F., Aug. 1931, Supplementary report on the geological features of certain dam sites on Piru Creek: Santa Clara Water Conservation District, unpublished consultant's report.
- Berkey, Charles P., and Kerr, Paul F., 1932, A report on the geological features of certain dam sites in the Sespe Creek drainage area: Santa Clara Water Conservation District, unpublished consultant's report, 36 p.
- Bookman and Edmonston, Sept. 1962, Interim summary report on water development program: United Water Conservation District, unpublished consultant's report, 72 p.
- C. E. Grunsky, Engineers, July 1925, The water resources of the Santa Clara River Valley: Santa Clara River Valley Protective Association, unpublished consultant's report, 93 p.
- Conkling, Harold, 1947, Water supply of Santa Clara Water Conservation District, Ventura County: Santa Clara Water Conservation District, unpublished report, 81 p.
- Densmore, Jill N., Middleton, Greg K., and Izbicki, John A., 1992, Surface-water releases for groundwater recharge, Santa Clara River, Ventura County, California, *in* Herrmann, Raymond, editor, Managing water resource during global change: American Water Resource Association, conference proceedings, Reno, Nevada November 1-5, 1992, pp 407-416.

- Engineering Science, Inc., Dec. 1975, Feasibility study for importation of state project water: unpublished report prepared for Castaic Municipal Water District, City of San Buenaventura, and United Water Conservation District.
- Farnsworth, R. B., May 1971, Preliminary report, Montalvo Basin recharge program proposal: United Water Conservation District, unpublished staff report, 8 p.
- Farnsworth, R. B., April 1972, Proposed annual releases of Castaic Reservoir natural inflows: United Water Conservation District, unpublished staff report, 13 p.
- Freeman, V. M., (1935 ?), Water spreading as practiced by Santa Clara Water Conservation District: Santa Clara Water Conservation District, unpublished staff report, 13 p.
- Freeman, V. M., Dec. 1932, Report on the study of capacity of underground reservoirs and calculated depletion and replenishment of underground stored water during the period January 1928 to March 1, 1932: Santa Clara Water Conservation District, report to the board of directors.
- Freeman, V. M., Sept. 1949, Preliminary report on cost of reclaiming water from the Oxnard domestic sewer system: Santa Clara Water Conservation District, staff report to the board of directors, 95 p.
- Geotechnical Consultants, Inc., Oct. 1981, Geotechnical evaluation of alluvium, Santa Felicia Dam, Ventura County, California: United Water Conservation District, unpublished consultant's report, 23 p., 2 appendixes.
- Geotechnical Consultants, Inc., Jan. 1982, Geotechnical investigation, pumping trough pipeline and Oxnard-Huenene water system improvements, Ventura County, California: Unpublished consultant's report prepared for Hawks & Associates on behalf of Ventura County and United Water Conservation District, 39 p., 3 plates.
- Grunsky, C. E., and Grunsky, E. L., April 1928, St. Francis Dam failure at midnight, March 12-13, 1928: Western Construction News, May 25 and June 25, 1928; prepared for the Santa Clara Water Conservation District.
- Hawks & Associates, ERTEC, and PRC Toups, Oct. 1981, Project reevaluation for pumping trough pipeline and Oxnard/Hueneme water system improvements: Ventura County Public Works Agency and United Water Conservation District, unpublished consultant's report, 45 p., appendix.
- Hinds, Julian, 1953, Investigations, plans and estimates for a supplemental water supply for agricultural, municipal, and industrial uses in the Santa Clara River Valley and vicinity: United Water Conservation District, unpublished report, 161 p.

Santa Paula, California 93060
805/525-4431

Available documents:

Subjects:	Geology, hydrogeology, hydrology, water resources, flocc control, water reuse.
Principal Areas:	Santa Clara River drainage basin, Oxnard Plain, Calleguas Creek drainage basin. Some reports from the Ventura River drainage basin.
Compiled by:	United Water Conservation District
Notes:	The reports are grouped by the agency principally responsible for producing and/or funding the report. Five groups are used: 1. Santa Clara and United Water Conservation Districts; 2. Ventura County agencies; 3. State agencies; 4. United States Government agencies; 5. Miscellaneous agencies. Some documents were produced by more than one agency.

I. Site-Specific Studies

A. Documents on hand at United Water Conservation District

1. Santa Clara and United Water Conservation Districts

Berkey, Charles P., and Kerr, Paul F., Aug. 1931, Progress report on the geological features of certain dam sites on Piru Creek: Santa Clara Water Conservation District, unpublished consultant's report.

Berkey, Charles P., and Kerr, Paul F., Aug. 1931, Supplementary report on the geological features of certain dam sites on Piru Creek: Santa Clara Water Conservation District, unpublished consultant's report.

Berkey, Charles P., and Kerr, Paul F., 1932, A report on the geological features of certain dam sites in the Sespe Creek drainage area: Santa Clara Water Conservation District, unpublished consultant's report, 36 p.

Bookman and Edmonston, Sept. 1962, Interim summary report on water development program: United Water Conservation District, unpublished consultant's report, 72 p.
